Item #613 Jenny Lind

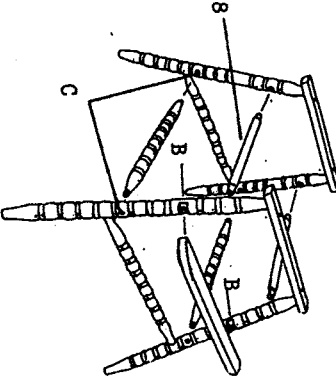

STEP 1 Attach tray arm brackets to arms using screws (D). Attach arms to back with screw (C). Be sure that brackets on arms are to the outside.

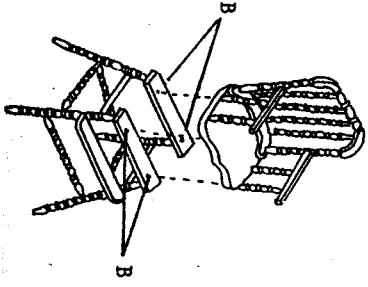

STEP 2 Attach seat with screws (C) in front, bolts (A) at back post, and screws (B) at the middle of back.

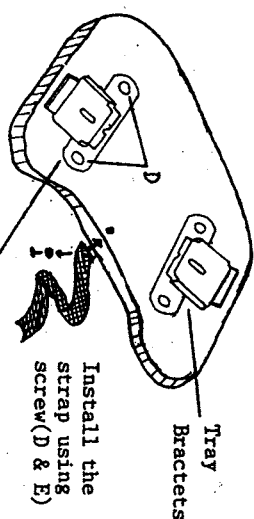

STEP 3 Assembly legs (6 & 7) and cross bars (8 & 9) using screws (C). Attach foot rest with screws (B).

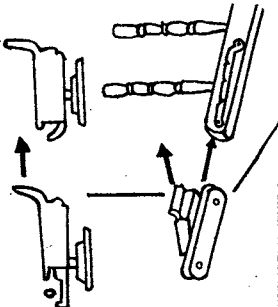

STEP 4 Attach leg assembly to bottom of seat with screws (B).

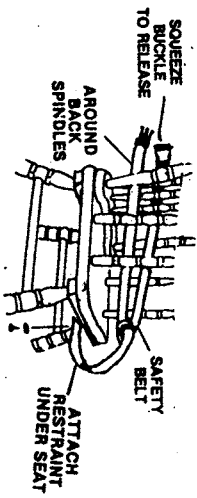

STEP 5 Loosely attach tray brackets to underside of tray with screws (D). To be adjusted and tightened in STEP 6.

Align TRAY to hi-chair 2 ARMS as shown below (Be sure to adjust TRAY to proper position. Then tighten it before using. Please push 2 ARMS a little inside to get easily sliding in.)

STEP 7 Install the advanced safety restraint belt using screws (D) and washer (E) just under the front lip of the seat. The safety belt goes between the child's legs around the waist, out the back of the chair and around the four spindles.

NOTE: THE CHILD SHOULD BE SECURED IN HIGH CHAIR AT ALL TIMES BY THE RESTRAINING SYSTEM. THE TRAY IS NOT DESIGNED TO HOLD THE CHILD IN THE CHAIR.
